

## INSTRUCTIONS FOR POSTER PRESENTERS

- (1) Your poster can have maximum dimensions of 1m x 1m (or approx. 3ft by 3ft).  
One solution is to print your poster in format A1 (594 × 841mm).
- (2) Poster presentations will be held in the Poster Area located at the lobby of the conference venue. Posters will be presented there for as long as possible to maximize exposure of your research.
- (3) The oral presentation of your poster will be held in two poster sessions. No parallel sessions will be held during the poster sessions.
- (4) For each poster session, there will be a Session Chair that will keep the time and host the presentations.
- (5) Check the program for when your oral presentation is scheduled. There is one time slot for each poster.
- (6) You will have up to five minutes to orally present your poster. Due to time constraints, questions cannot be taken during the session, only before or after. We recommend you stick around a bit to maximize interaction with the audience.
- (7) Please be present for the ENTIRE session in which your oral presentation of your poster is scheduled.
- (8) Please bring your poster to the conference at your earliest convenience.
- (9) At the Session site, there will be a designated space for your paper, and your paper only. Make sure that you attach your poster there, and not somewhere else.
- (10) Please leave your poster up as long as possible. It may be a good idea to post an email address on your poster so that people can contact you during EAAERE2015.
